Art experience

Naxos island - Greece

NAXIAN COLLECTION

LUXURY VILLAS & SUITES

Naxian Collection proudly presents Ingbert Brunk,
Katharina Bolesch and Alex Richard.
Unique art pieces of the artists are exposed in our Villas.

The artists

Ingbert Brunk is a famous sculptor who is working in Naxos Island. His studio is situated in Venetian fortress built on the ruins of an ancient acropolis. In these surroundings sculptures take shape. It was the white, crystalline and diaphanous Naxian marble that inspired the artist to begin. The artist never works against the stone.

He includes the idiosyncracies of every piece into the working process. In this way he creates highly aesthetic works in which sensitive planning and consummate craftsmanship unite in greatest harmony.

Katharina Bolesch and Alex Richard are accomplished art potters.

It is in the landscape and life of the Naxian earth that Katharina has found the inspiration that has made her one of the finest art potters of today, one whose "small masterpieces" (National Geographic Traveler 2001) are winning her recognition across the world and at the highest level of her craft. Alexander introduced new fish motifs into Katharina's pottery and he creates translucent marble lamps and stylish wooden artifacts.
